[HOME](#)>GUELL

Luce in continua evoluzione

Oltre dieci anni di successi e milioni di unità installate in tutto il mondo, negli ambienti più diversi: GUELL è la storica gamma di proiettori LED progettata per adattarsi. Qualunque sia il contesto – un impianto sportivo non professionale, una vetrina retail, un sottotetto o un cornicione, l'esterno di un sito produttivo o commerciale – la serie offre l'ideale combinazione di potenza, efficienza e durata.

Con l'introduzione dei nuovi modelli GUELL ZERO+, 1+, 2+ e 2.5+ ad affiancare GUELL 3 e 4, le possibilità progettuali si moltiplicano ulteriormente. Le nuove varianti garantiscono un'illuminazione ancora più efficiente, con prestazioni che possono raggiungere i 154 lumen per watt, e una maggiore coerenza estetica tra apparecchi di potenze differenti. Ogni modello è disponibile con ottiche simmetriche o asimmetriche, in tre temperature colore – 3000, 4000 e 5000 Kelvin – tutte con indice di resa cromatica pari a 80, per una qualità della luce costante in ogni applicazione.

Il corpo in alluminio pressofuso verniciato a polvere, le clip in alluminio estruso e il vetro temprato extra-chiaro assicurano solidità e resistenza in ambienti sfidanti. Il sistema di apertura rapida senza utensili semplifica l'accesso ai componenti interni e riduce i tempi di intervento, mentre i numerosi accessori specifici soddisfano anche i severi requisiti progettuali antinquinamento luminoso. In più, la progettazione priva di incollaggi e la possibilità di sostituire ogni componente rendono il prodotto facilmente ispezionabile e totalmente riciclabile, contribuendo a una gestione più sostenibile delle risorse.

Per chi cerca un'illuminazione precisa, affidabile e durevole, GUELL è la risposta.

Gamma

Features & benefits

- ✓ Ampia profondità di gamma
- ✓ Ampia gamma di accessori
- ✓ Prodotto apribile e manutenibile
- ✓ Molteplici distribuzioni luminose
- ✓ Per installazioni UP LIGHT
- ✓ Progettato per durare
- ✓ Protetto dalle sovratensioni
- ✓ Ottima dissipazione del calore
- ✓ Flusso luminoso costante nel tempo
- ✓ Versioni con controllo DALI
- ✓ Conformità leggi anti inquinamento luminoso
- ✓ Disponibili oggetti BIM di alta qualità
